PROJECTS

- **Khojkhaz – Real Estate App (React Native/TypeScript/Golang):** Built a mobile app where users can list rental properties, apartments, and manage their property details with CRUD functionality.

- **Movie-Rating (React, TypeScript**): Developed an app using a third-party API, allowing guest users to log in, rate movies, and view information about movies and TV shows.

- **Job-Listing (React, JavaScript):** Created a web app for job listings with full CRUD functionality, enabling users to add, edit, view, and delete job postings.

WORK EXPERIENCE

Arcadia Creation Pvt. Ltd   Bhaktapur, Nepal
Frontend Developer Intern   **December 2023 – March 2024**

- Translated user and business needs into functional frontend design using React (JavaScript), HTML, and CSS.
- Worked with teams to build responsive and interactive web applications to make sure they work well on both desktop and mobile devices.
